The London Evening 2012

Partners In Research (PIR) is a national Canadian charity established in 1988 to educate the public - particularly young people - about the history, importance, accomplishments and promise of health research in all its aspects.

Our mandate is to educate the public, especially primary and secondary school students, on issues relating to biomedical-based health research in all medical advances. As well, Partners In Research is committed to the inclusion of the technology, engineering and mathematical fields of study in our endeavours to share the importance of research and discovery with students.

Funds raised at The London Evening are used to inspire students across Canada to consider becoming our next champions in Science, Technology, Engineering and Mathematics.

* It is with profound sadness that we at Partners In Research mourn the death on March 9th, 2012, of Dr. Larry Agranove. Larry, along with his devoted wife Susan, were among our earliest supporters, and remained stalwart friends. Larry's support and guidance were very significant and helped Partners establish itself and grow.

We remember Larry with great affection, respect and gratitude.

Honourary Co-Chairs
Dr. Arthur J. Carty and Dr. M.A. Elbestawi

Event Co-Chairs
Mr. & Mrs. Paul & Sandi Caplan
and Dr. Bryna Warshawsky
